

From mountain to sea

Aberdeenshire
COUNCIL

How tall is that tree?

1. Stand with your legs apart and your back to the tree.
2. Keeping your legs straight, bend down and look at the tree between your legs.
3. Move backwards or forwards so that you can just about see the top of the tree between your legs.
4. Measure the distance between your feet and the tree trunk. When you can see the top of the tree between your legs, the distance between your feet and the trunk is about the same height as the tree.

How tall is your tree?
