HIDDEN GEMS

Strichen Stone Circle (AB43 6TN) is located about $\frac{3}{4}$ mile south-west of the town. The circle measures 15m in diameter with seven large slabs, a large recumbent stone that lays on its side, accompanied by two flanking stones at either end.

Mormond hill has a hill figure of a stag made from quartz stone on the south east face. There is also a horse also made from quartz stone on the south west side of the hill. There is a footpath to the white horse and well worth the walk
